HONGKONG, SEPTEMBER 22ND, 1888.

THAT there is a strong anti-foreign feeling prevailing over the whole of China has been abundantly shown of late. The riot at Canton, the circulation of auti-foreign literature in the North, and the bearing of the Chinese wherever foreigners come in contact with them, all seem to indicate that the bulk of the people would enter on a conflict with the "outer barbarians" with a light heart, steamer Pandora, on the 10th Sept. The Straits There are of course some Chinese who Times save that His Excellency spould proceed fully appreciate the advantage of foreign intercourse, and many who, whatever their feelings may be, have sufficient common sense to see that the issue of a sands of pounds in a purchase of horses, ear. conflict could not fail to be disastrons to China, but the bulk of the people would at the present moment rush into the conflict of Mr. Arthur Goule, M.R.C.V.S., who has been without staying to consider the probable result, and influenced simply by their blind batred of the foreigner. The rustice, it is true, may be indifferent so long as they are left to themselves, but they would unquestioningly follow their leaders, the literation so that it is not incorrect to speak of the majority of the people as being diplomatic consequences. The bomba diment of interior of the place was in flames. Being rather to the foreigner. But side by side with this feeling there prevails widespread disaffection with the existing Government. This disaffection has been simmering for years, and it is the opinion of close obser- | terests of its own, which are often contrary to | ever, in confining the flames to the house | they vers of the Chinese that it is only waiting an those of France. France needs colonies for broke out in, with the exception of some slight opportunity to boilover. It therefore becomes an interesting question whether in the event of the country being drawn into war with a foreign power, the people would present a united front or would take the opportunity to revolt against the Manchus. The question, interesting as it is, is of too speculative bellicose projects on the housetops, and forea character to be answered; time and circumstances alone can solve it. It is, how. ever worth while to consider what hold the Government has over the people. The Chiness are a patient and long-suffering race, the Tonquinese, who implored our protection. but the continual " squeezing " to which they are subjected tends to breed ill-feeling towards the Government, apart from any sentiment of patriotism which might prompt them to attempt the overthrow of the Manchu dynasty. The Taiping Rebellion proved how ready the people were to revolt, and whenever a capable leader again appears It was time be consolidated his power and re- Sweden and Norway, Denmark, and Belgium versatile, and prolific master was most happily written for the express purpose of inflaming they will be found equally ready to follow duced the whole body of mandarine to a state of similar to that already negotiated with Great caught. him. A letter which appared in our issue of yesterday is somewhat significant on this point. From 1874 to 1880 this department has stood in the way of a pacific occupation of Tonquin. Its ides was that 20 Europeans would suffice to take a fortress there defended by 16,000 natives. Since 1880 the Marine diplomatists have been urging on their warning our enemies. Years ago 200 Fronchmen might have liberated Tonquin from Annam. There are now 10,000 French soldiers, and in all probability not enough there. In 1873 Dapuis and Garnier could have given us that province for nothing. Talking of the vernacular press. I consider that we foreigners (so-called) do not attach a tittle of the importance to its existence and action which it claims. We have been in habit here in Hon kong of looking upon the pative newspapers as insignificant issues, whichmaintain a precarious existence by hashing up information from foreign sources for the edification of Chinese readers in the colony. VICTORIA ICE COMPANY, LIMITED. TO THE EDITOR OF THE "DAILY PRESS" SIE,-I am very much obliged to the gentlemen or rather the gentleman who was kind, enough to write so much about the Victoria Ice Company in all the local papers. It is quite evident that the opposition reised against the new concern is not of a purely disinterested nature, otherwise it has no raison d'être, as I will presently show: The Hon kong Ice Company sell their ice at 2 cents par it, and the yearly gross earnings amount to \$33,411 with an expenditure of \$16,000. Supposing that the old Company lower their rate to I cent per lb., their gross receipts will be one half of the present amount, namely, \$19,205, 0. Pelucting the annual outlay of 16,000 from this amount it will leave only \$3.205.50 as nett engineers on a capital of \$125,400, or neady 8 per cent. If the Houghous Ice Co. should just her lower their rate to, say, ha cent per lb., their gross earnings will be a quarter of the present figure, vis. \$9.602.76 a sinst their expenditure of

Now, the Victoria Ice Company will be able to as their cost of manufacture is only one-third of a cent per lb. (an outlay of \$12,000 yielding 3,600, 00 ths, of ice),

From the foregoing it will be seen that the Hongkong I e Company will hardly be a le to toris Ice Company will soon have the control of he market as regards the ice supply.

Logon's house is situated in the principal street of Honam, Cross-street, and it was here that the shots were fired. The places where the wounded persons fell are some distance apart, and it is stated that Logan ran first in one lirection and fired, and then ran back and fired the second shot.
